

ID	Summary	Description	Steps to reproduce	Severity	Priority	Attachment	Status
1	Wrong information is displayed when [5] button is clicked.	<p>When [5] button is clicked in the input line displays the wrong value '55'.</p> <p>Actual result: 55</p> <p>Expected result: 5</p> <p>Environment: Windows 10</p> <p>Requirement ID: 25</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [5] button.</p>	Critical	ASAP		New.
2	Wrong information is displayed when [6] button is clicked.	<p>When [6] button is clicked in the input line displays the wrong value '9'.</p> <p>Actual result: 9</p> <p>Expected result: 6</p> <p>Environment: Windows 10</p> <p>Requirement ID: 27</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [6] button.</p>	Critical	ASAP		New.
3	Wrong information is displayed when [9] button is clicked.	<p>When [9] button is clicked in the input line displays the wrong value '6'.</p> <p>Actual result: 6</p> <p>Expected result: 9</p> <p>Environment: Windows 10</p> <p>Requirement ID: 33</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [9] button.</p>	Critical	ASAP		New.

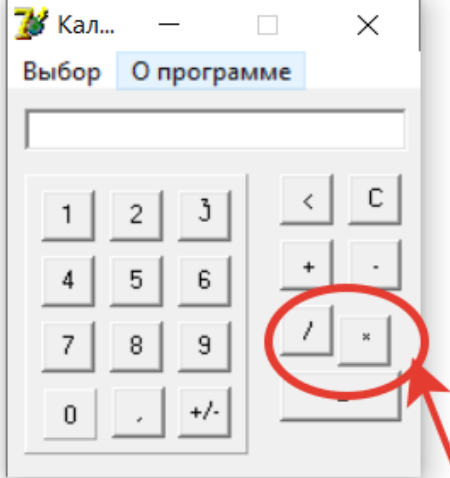

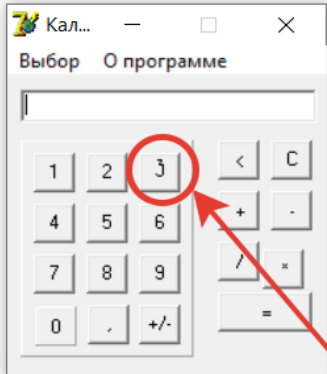

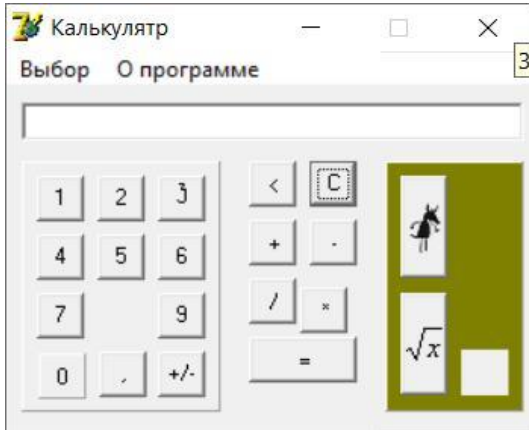

4	<p>The button [8] is disappears from virtual keyboard after the user click on the [8] button.</p> <p>Actual result: The [8] button are disappear from the virtual keyboard.</p> <p>Expected result: The [8] button not supposed to disappear from the virtual keyboard</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [8] button.</p>	Critical	ASAP		New.
5	<p>An user guide does not open when the user click on the [О программе] button.</p> <p>Actual result: An user guide does not open.</p> <p>Expected result: The user guide should open.</p> <p>Environment: Windows 10</p> <p>Requirement ID: 6, 69</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [О программе] button.</p>	Medium	Normal		New.

6	Not displayed all the entered data with selected mathematical operation in the input line.	<p>When the user enters [1+2] not displayed all the entered data with selected mathematical operation in the input line.</p> <p>Actual result: 2</p> <p>Expected result: 1+2</p> <p>Environment: Windows 10</p> <p>Requirement ID: 88</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click [1] button on virtual keyboard.</p> <p>3. Click [+] button on virtual keyboard.</p> <p>4. Click [2] button on virtual keyboard.</p>	Medium	High		New.
7	Not displayed the value + when [+] button is clicked.	<p>Not displayed the selected mathematical operation in + the input line when [+] button is clicked.</p> <p>Actual result: The input line is empty</p> <p>Expected result: +</p> <p>Environment: Windows 10</p> <p>Requirement ID: 38</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click [1] button on virtual keyboard.</p> <p>3. Click [+] button on virtual keyboard.</p>	Medium	High		New.
8	Not displayed the value - when [-] button is clicked.	<p>Not displayed the selected mathematical operation in - the input line when [-] button is clicked.</p> <p>Actual result: The input line is empty</p> <p>Expected result: -</p> <p>Environment: Windows 10</p> <p>Requirement ID: 40</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click [1] button on virtual keyboard.</p> <p>3. Click [-] button on virtual keyboard.</p>	Medium	High		New.

9	Not displayed the value / when [/] button is clicked.	<p>Not displayed the selected mathematical operation in - the input line when [/] button is clicked.</p> <p>Actual result: The input line is empty</p> <p>Expected result: /</p> <p>Environment: Windows 10</p> <p>Requirement ID: 42</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click [4] button on virtual keyboard.</p> <p>3. Click [/] button on virtual keyboard.</p>	Medium	High		New.
10	Not displayed the value x when [*] button is clicked.	<p>Not displayed the selected mathematical operation in - the input line when [*] button is clicked.</p> <p>Actual result: The input line is empty</p> <p>Expected result: ×</p> <p>Environment: Windows 10</p> <p>Requirement ID: 44</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click [4] button on virtual keyboard.</p> <p>3. Click [*] button on virtual keyboard.</p>	Medium	High		New.
11	The perform incorrectly the mathematical operation multiplication.	<p>When performing a mathematical operation, multiplication (3*7), the result is incorrect.</p> <p>Actual result: -4</p> <p>Expected result: 21</p> <p>Environment: Windows 10</p> <p>Requirement ID: 45</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>1. Click [3] button on virtual keyboard.</p> <p>2. Click [*] button on virtual keyboard.</p> <p>3. Click [7] button on virtual keyboard.</p> <p>4. Click [=] button on virtual keyboard.</p>	Critical	ASAP		New.

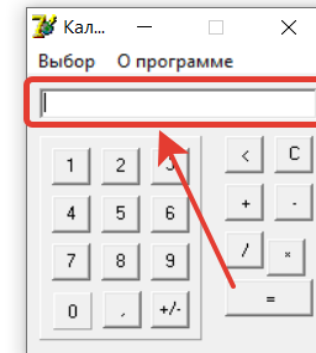

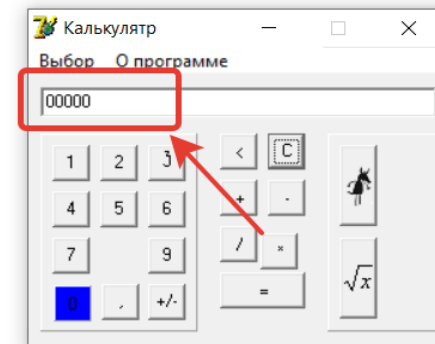

12	<p>The appearance of the [x²] button in scientific mode does not match to GUI schema.</p> <p>Actual result: Incomprehensible icon</p> <p>Expected result: x²</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [Выбор] button.</p> <p>3. Select scientific mode.</p>	Major	ASAP		New.
13	<p>There is a spelling mistake in the name of the calculator mode "Инженерный".</p> <p>Actual result: Инжинерный</p> <p>Expected result: Инженерный</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [Выбор] button.</p>	Major	High		New.
14	<p>When receiving a decimal fraction, rounding to two decimal places is not performed (v8)</p> <p>Actual result: 2,44948974278318</p> <p>Expected result: 2,83</p> <p>Environment: Windows 10</p> <p>Requirement ID: 89</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [Выбор] button.</p> <p>3. Select scientific mode.</p> <p>4. Click on [8] button.</p> <p>5. Click on [v] button.</p> <p>6. Click on [=] button.</p>	Major	ASAP		New.

15	Sometimes the 0 button changes colour to blue in virtual keyboard	<p>Sometimes after user click the [0] button, the button changes from white to blue</p> <p>Actual result: The button is blue</p> <p>Expected result: The button should be white</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info: This was not always the case!</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 2. Click on [0] button. 	Minor	Normal		New.
16	In simple mode, the name of the app is not displayed completely.	<p>In simple mode, the name of the app is not displayed completely in the upper left corner near the icon.</p> <p>Actual result: Кал...</p> <p>Expected result: Калькулятор</p> <p>Environment: Windows 10</p> <p>Requirement ID: 64</p> <p>Additional Info:</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 	Minor	Normal		New.
17	Missing the last letter (O) in the name of the calculator app "Калькулятор" in scientific mode.	<p>There is a spelling mistake in the name of the calculator app, missing the last letter (O) in scientific mode.</p> <p>Actual result: Калькулятр</p> <p>Expected result: Калькулятор</p> <p>Environment: Windows 10</p> <p>Requirement ID: 64</p> <p>Additional Info:</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 2. Click on [Выбор] button. 3. Select scientific mode. 	Minor	High		New.

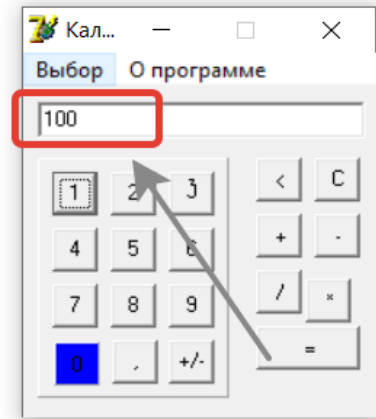

18	The location of the [*] button on the virtual keyboard does not match to GUI schema.	<p>The location of the [*] button on the virtual keyboard does not match to GUI schema.</p> <p>Actual result: It is located to the left and lower than on the GUI schema.</p> <p>Expected result: should be accordance with the GUI schema.</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info:</p>	1. Open calc.exe file located on C:\Users\Admin\Desktop.	Minor	Normal		New.
19	The [3] button on the virtual keyboard does not match to GUI schema.	<p>The [3] button on the virtual keyboard does not match to GUI schema.</p> <p>Actual result: Incomprehensible icon</p> <p>Expected result: 3</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info:</p>	1. Open calc.exe file located on C:\Users\Admin\Desktop.	Minor	Normal		New.
20	Area where are the [x²] and [v] buttons changes colour to green in virtual keyboard	<p>Sometimes area where are the [x²] and [v] buttons changes colour to green in virtual keyboard.</p> <p>Actual result: The button is green</p> <p>Expected result: The button should be white</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info: This was not always the case!</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [Выбор] button.</p> <p>3. Select scientific mode.</p>	Minor	Low		New.

21	<p>The user select a $[x^2]$ function, an icon located on this button appears on the screen.</p> <p>Actual result: icon appear</p> <p>Expected result: icon should not appear</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info: after that the app crashed</p>	<p>Only once when you select a function, the icon located on this button appears on the screen.</p> <p>Actual result: icon appear</p> <p>Expected result: icon should not appear</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info: after that the app crashed</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 2. Click on [Выбор] button. 3. Select scientific mode. 	Minor	High		New.
22	<p>Incorrectly counts the division of two negative integers numbers.</p> <p>Actual result: 2</p> <p>Expected result: 4</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59</p> <p>Additional Info:</p>	<p>Incorrectly counts the division of two negative integers numbers (-8/-2).</p> <p>Actual result: 2</p> <p>Expected result: 4</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59</p> <p>Additional Info:</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 2. Click [8] button on virtual keyboard. 3. Click [+/-] button on virtual keyboard. 4. Click [/] button on virtual keyboard. 5. Click [2] button on virtual keyboard. 6. Click [+/-] button on virtual keyboard. 7. Click [=] button on virtual keyboard. 	Critical	ASAP		New.
23	<p>Incorrectly counts the division of one positive integers number by one negative integers number.</p> <p>Actual result: -11</p> <p>Expected result: -22</p> <p>Environment: Windows 10</p> <p>Requirement ID: 25</p> <p>Additional Info:</p>	<p>Incorrectly counts the division of one positive integers number by one negative integers number (44/-2).</p> <p>Actual result: -11</p> <p>Expected result: -22</p> <p>Environment: Windows 10</p> <p>Requirement ID: 25</p> <p>Additional Info:</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 2. Click [4] button on virtual keyboard. 3. Click [4] button on virtual keyboard. 4. Click [/] button on virtual keyboard. 5. Click [2] button on virtual keyboard. 6. Click [+/-] button on virtual keyboard. 7. Click [=] button on virtual keyboard. 	Critical	ASAP		New.

24	Data entry is not carried out from the computer keyboard.	<p>Data entry is not carried out from the computer keyboard only through the virtual keyboard.</p> <p>Actual result: Not carried out from the computer keyboard.</p> <p>Expected result: Enter data from the keyboard</p> <p>Environment: Windows 10</p> <p>Requirement ID: 7</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Press the [1] button.</p> <p>3. Press the [2] button.</p> <p>4. Press the [3] button.</p> <p>5. Press the [4] button</p> <p>6. Press the [5] button</p> <p>7. Press the [6] button</p> <p>8. Press the [7] button</p> <p>9. Press the [8] button</p> <p>10 Press the [9] button</p> <p>11 Press the [0] button</p> <p>12 Press the [/] button</p> <p>13 Press the [*] button</p> <p>14 Press the [-] button</p> <p>15 Press the [+] button</p>	Major	High		New.
25	Incorrectly counts when divided by a negative number.	<p>Incorrectly counts when divided by a negative number. (8/-2).</p> <p>Actual result: -2</p> <p>Expected result: -4</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click [8] button on virtual keyboard.</p> <p>3. Click [/] button on virtual keyboard.</p> <p>4. Click [2] button on virtual keyboard.</p> <p>5. Click [+/-] button on virtual keyboard.</p> <p>6. Click [=] button on virtual keyboard.</p>	Critical	ASAP		New.

26	<p>Calculator perform incorrect mathematical calculation like division by 0</p> <p>Actual result: -8</p> <p>Expected result: Cancels all entered action and show default value on the screen.</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59, 60</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click [8] button on virtual keyboard.</p> <p>3. Click [/] button on virtual keyboard.</p> <p>4. Click [2] button on virtual keyboard.</p> <p>5. Click [=] button on virtual keyboard.</p>	Critical	ASAP		New.
27	<p>There is no default value (0) on the screen.</p> <p>Actual result: no default value (0) on the screen.</p> <p>Expected result: 0</p> <p>Environment: Windows 10</p> <p>Requirement ID: 13</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p>	Minor	Normal		New.
28	<p>When entering 000 displays the entered value.</p> <p>Actual result: 00000</p> <p>Expected result: 0</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [0] button.</p> <p>3. Click on [0] button.</p> <p>4. Click on [0] button.</p> <p>5. Click on [0] button.</p> <p>6. Click on [0] button.</p>	Critical	ASAP		New.

29	Cannot enter value 808 due to button 8 disappearing	<p>Cannot enter value 808 due to button 8 disappearing after first click</p> <p>Actual result: 80</p> <p>Expected result: 808</p> <p>Environment: Windows 10</p> <p>Requirement ID: 87</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [8] button.</p> <p>3. Click on [0] button.</p> <p>4. Click on [8] button.</p>	Critical	ASAP		New.
30	The close [x] button for app doesn't always work.	<p>Sometimes when trying to close the application, the button to close the application is not active.</p> <p>Actual result: inactive close button</p> <p>Expected result: active close button</p> <p>Environment: Windows 10</p> <p>Requirement ID: 78</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [x] button.</p>	Major	High		New.
31	The minimize [_] button for app doesn't always work.	<p>Sometimes when user trying to minimize the application, the button to minimize [_] the application is not active.</p> <p>Actual result: inactive minimize [_] button</p> <p>Expected result: active minimize [_] button</p> <p>Environment: Windows 10</p> <p>Requirement ID: 78</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [_] button.</p>	Major	High		New.

32	<p>The divide two integer square roots numbers by each other is not performed.</p> <p>Actual result: 10</p> <p>Expected result: 1,1</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59</p> <p>Additional Info:</p>	<p>When the user tries to divide the square root by the square root ($\sqrt{121}/\sqrt{100}$), the math operation fails.</p> <p>Actual result: 10</p> <p>Expected result: 1,1</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59</p> <p>Additional Info:</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 2. Click on [Выбор] button. 3. Select scientific mode. 4. Click [1] button on virtual keyboard. 5. Click [2] button on virtual keyboard. 6. Click [1] button on virtual keyboard. 7. Click [v] button on virtual keyboard. 8. Click [/] button on virtual keyboard. 9. Click [1] button on virtual keyboard. 10. Click [0] button on virtual keyboard. 11. Click [0] button on virtual keyboard. 12. Click [v] button on virtual keyboard. 13. Click [=] button on virtual keyboard. 	Critical	ASAP		New.
33	<p>The [0] button does not always respond to a click</p> <p>Actual result: 100</p> <p>Expected result: 1000</p> <p>Environment: Windows 10</p> <p>Requirement ID: 15, 16</p> <p>Additional Info:</p>	<p>When the user tries to enter the value 1000 and clicked the [0] button more than one time in the input line displays the wrong value.</p> <p>Actual result: 100</p> <p>Expected result: 1000</p> <p>Environment: Windows 10</p> <p>Requirement ID: 15, 16</p> <p>Additional Info:</p>	<ol style="list-style-type: none"> 1. Open calc.exe file located on C:\Users\Admin\Desktop. 2. Click [1] button on virtual keyboard. 3. Click [0] button on virtual keyboard. 4. Click [0] button on virtual keyboard. 5. Click [0] button on virtual keyboard. 	Critical	ASAP		New.

34	<p>The divide one square root integer number by one square integer number.</p>	<p>When the user tries to divide one square root integer number by one square integer number ($\sqrt{121}/10^2$), the math operation fails.</p> <p>Actual result: 0,1</p> <p>Expected result: 0,11</p> <p>Environment: Windows 10</p> <p>Requirement ID: 59</p> <p>Additional Info:</p>	<p>1. Open calc.exe file located on C:\Users\Admin\Desktop.</p> <p>2. Click on [Выбор] button.</p> <p>3. Select scientific mode.</p> <p>4. Click [1] button on virtual keyboard.</p> <p>5. Click [2] button on virtual keyboard.</p> <p>6. Click [1] button on virtual keyboard.</p> <p>7. Click [√] button on virtual keyboard.</p> <p>8. Click [/] button on virtual keyboard.</p> <p>9. Click [1] button on virtual keyboard.</p> <p>10. Click [0] button on virtual keyboard.</p> <p>11. Click [x²] button on virtual keyboard.</p> <p>12. Click [=] button on virtual keyboard.</p>	Critical	ASAP		New.
